Patent No. 5783436

GENERAL INFORMATION:
APPLICAMT: Robert P. Hausinger
TITLE OF INVENTION: Mutant Urease and Method
TITLE OF INVENTION: of Use Por Determination
TITLE OF INVENTION: of Use
NUMBER OF SEQUENCES: 5
CORRESPONDENCE ADDRESS:
ADDRESSEE: Ian C. McLeod
STREET: 2190 Commons Parkway
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       CUDNITAT: USAN

ZIP: 4864
